

## Individual Donations

According to the [US Environmental Protection Agency](#), there are approximately 110.2 million desktop computers, monitors, and laptop computers stockpiled in American storerooms, attics, garages, and basements. In 2007, only 18 percent of personal computers retired in the U.S. were recycled. House of Angel's provides an even better form of recycling, reuse. All working donations are accepted **FREE** of charge!

## Equipment needed:

- Computers (CPU at or above PIII 700MHz) ( \$5.00)

For more information contact Carolyn Whitfield at [hoajax@gmail.com](mailto:hoajax@gmail.com) or 904-900-1362.

## Tax Benefits

Other than renewing the life of a computer and helping to solve the problem of e-waste a donor may be able to write off their donation. The IRS code provides a tax deduction for property donated to a charitable organization under applicable rules and regulations. For individuals, the charitable deduction for contributions of technology equals the fair market value (retail used value in the current market place) of the donated property. The donation is tax deductible for the year in which the equipment is received. A receipt letter will be provided to the donor upon completion of the donation process. That letter will reflect the year in which the equipment was received.
